Up There  
Above dirt  
In Between  
Safe and far away  
Good morrow, my good lords  
Urban elite (worthless)  
There there  
Wealthy elite (vilely)

In every speech  
Brainwash with bleach  
On all the channels  
On every panel  
My numbers are strong  
Cos' I'm never wrong  
I'm the tool you can disguise  
The Word of God, big size  
Use my maths  
The golden path  
I've been collected  
And analysed  
To drive opinion  
And have dominion  
Over everyone  
[Over anyone]  
I give samples  
Numerical values

To forge any opinion

Anarchimetric path pops all around  
Right and left, un and down  
Which way would you go ?  
On which road would you choose to runaway ?  
Lies, lies, lies ! x8

Big lies are the words told to lead you  
You can melt them together  
Smash them (smash them)  
And turn them (turn them)  
Into whatever you desire them to be... (logorrhea)  
Into whoever will rule your desire to me... (logorrhea)

Big Data, Big Karma, Big Pharma drives you Lies,  
lies, lies ! x4  
Big Data, Big Karma, Big Pharma drives you Lies,  
lies, lies ! x4

Pull yourself from inside  
And just pretend, just...  
Lie ! Lie ! Lie !  
Lie! Lie, lie !

As you know, as you do  
Convince us to be blind  
And just pretend, you're just a...  
Lie ! Lie ! Lie !  
Lies, lies, lies !

For us to cry, for us to buy  
Hidden behind and in the dark  
We're just crawling !  
One road and no crossroads for the wise  
No crossroads that's for the fools  
A line to follow, drives you to the only one direction  
Which choices do you have ?  
On which road would you choose to runaway ?  
Lords and commanders,  
Gods and pretenders  
You can sew them all together  
Tie them tight to better beliefs  
To be bind strong and stiff... sewn to them

Everything...  
Everything was right  
Everything...  
Everything before  
All these things...  
All these things we knew  
All the crowded towns  
Under these blue skies  
I wish I can be naïve as before  
I remember the smiles painted on their faces  
I wish I can lie down and make a pause  
And for a while forget what is now

All I want is to black out  
All I need is to close my eyes  
But listen maybe can you give me a hand  
Hey listen would you help me to erase ?  
All I want is to black out  
All I need is to close my eyes  
But listen maybe can you give me a hand  
Hey listen would you help me to erase ?  
Would you help me to erase ?

I wish I can be naïve as before  
I remember the smiles painted on their faces  
I wish I can lie down and make a pause  
And for a while forget what is now...  
Everything faded away  
All the past left behind  
All my friends are gone  
All the crowded towns empty [as I am]

All I want is to black out  
All I need is to close my eyes  
But listen maybe can you give me a hand  
Hey listen would you help me to erase ?  
All I want is to black out  
All I need is to close my eyes  
But listen maybe can you give me a hand  
Hey listen would you help me to erase ?

Everything was right  
Everything was wrong  
Everything before  
Everything right now

All these things we knew  
All these things I have lost  
All the crowded towns  
Fire, walk with me !

Try to see the flea under the tissue  
Hands under white gloves making aerial movements  
Pretending to reveal but gently masking  
Hypnotical  
Hypnotical variation

Underneath the glove's silk softness  
Puppeteer's hands ballet blurs away the bug  
Now it's all about colors and sweetness

Melting sounds  
Nice words  
Fake but good  
Lies always charm  
Beware the magician

Pull you to the masquerade  
Soft and inevitable  
Pull you to where sceneries have been made  
Sugary and warm  
Sugary and warm

Been caught through scanlines  
Scriptdoctors respond to your desires  
Infinite entertainment  
Satisfaction for everyone

Sentinels stalking you  
Are you sinking down well enough

## U C4N TRY 2 H1D3

Hello where are you my dear ?

I guess you can try, you can try, you can try  
I guess you can try...  
You can try, you can try, you can try...  
I guess you can try,  
You can try, you can try, I guess...  
You can try to hide...  
You can run, you can scream, you can crawl  
Of course you can try...  
Under a bed, in a hole, yeah  
You can always try...

This is not gonna make you any better  
You can try to hide  
I will search every room, every box, every skin to...  
This is not gonna help in any matter  
You can try to hide  
I will search every room, every box, every skin to...

And now, I can smell your fear...

I guess you can try, you can try, you can try  
I guess you can try...  
You can try, you can try, I guess...  
You can try to hide...  
Will you try, will you try, will you try...  
Of course you will try...  
You still try, you still try, I guess...  
You still try to hide...

This is not gonna make you any better  
You can try to hide  
I will search every room, every box, every skin to...  
This is not gonna make you any better  
You can try to hide  
I will search every room, every box, every skin to...

Cold is the outside  
You can't hide long enough  
Dark are the insides  
You can't hide long enough for my scrutinizing eyes  
And one day, reflected on the surface of your retina  
*[The curved picture of me... Approaching...  
At the right time just before you'll close your eyelids  
In an instant everything will disappear for ever, for  
you]*

Hello where are you dear ?  
Hello where are you dear ?

You're not me and never will be (x7)

Fences tall and thick  
Anchors strapped at both of your feet  
Dig the furrows of your unsurpassable  
Normality, that's your boring and grey life

Errors and mistakes won't kill anyone  
Everything is even, is that right ?  
Stories which are your unsurpassable  
Normality, that's your boring and grey life

You're not me and never will be (x6)

Hiding as much as you can  
Scared of everything  
You know just what is needed in your  
Unsurpassable boring and grey life... at least

You're not me and never will be (x9)

You're not me  
I hate you and your kind  
You're not me  
And I want all of you, dead

I hate you and your kind  
And I want all of you dead  
You're not me  
All of you dead  
You're not me  
All of you dead  
You're not me  
All of you dead

You're not me and never will be  
You're not me and never will be  
You're not me and never will be  
You're not me and never will be
